Welcome

With staff and current students on hand to answer any of your questions, our open evenings are the perfect opportunity for you to discover the range of taught and research programmes we have on offer.

Our campus

Loughborough University London is an inspiring postgraduate campus located on Queen Elizabeth Olympic Park, Stratford – the home of the London 2012 Olympic and Paralympic Games.

We operate inside an 9,000m² collaborative learning space, providing state-of-the-art equipment and materials to ensure knowledge, research and creativity can thrive.

Working with industry

Our partnerships with industry mean our programmes are led by real-world issues and genuine industry challenges. What's more, our students learn from influential thought leaders, talented researchers and inspiring academics, who each offer a unique insight into the very latest developments from within their sector.

Research

Loughborough University London continues Loughborough's success as one of the country's top research-led universities; bringing benefit to local and international communities through applied research and sociocultural, interdisciplinary thinking. We have research and PhD opportunities across all of our seven institutes.
